

BOS® Cleantec Indoor Air Cleaning Specialist

Certificate

BOS®Cleantec negative air machine and brushing machine

BOS®Cleantec negative air machines and BOS®Cleaner brushing machines are designed and manufactured in accordance with the Government Machinery Ordinance and meet the requirements of the EC Machinery Directive.

All BOS®Clean negative air machines can be used well and safely for dust-free remediation, filtration of silicate minerals such as quartz, asbestos or creosote in demolition work. They are also suitable for cleaning ventilation ducts.

BOS®Clean negative air machines HEPA filters comply with EN1822: 2009 and are designed to separate > 99.95% 0.15-0.30 µm particles.

The tightness of BOS®Clean negative air machines has been tested by VTT and they are suitable for demanding applications.

BOS®Cleantec negative air machines and BOS®Cleaner brushing machines are CE marked.
